#### **Alfresco Developer Guide**

This book takes you through a set of exercises as if you were rolling out and customizing the platform for a fictional organization called Some Co, which wants to roll out Alfresco enterprise-wide. Each department has a set of requirements that need addressed. We will show you how to extend Alfresco to meet these requirements. By the time you've worked through the entire book, you will be familiar with the entire platform. You'll be prepared to make your own customizations whether they are part of a Document Management solution, a web site that uses Alfresco for content storage, or an entire custom application built on Alfresco's REST API.

You can read more about the book [here](#).

You are going to be pleased when you find out that we are offering you an exclusive discount on this book. You can get **20% off** the print copy or a **40%** discount off the eBook version. If you buy both versions at the same time, we'll give you **20% off** the book and **90% off** the eBook!

To take advantage of these discounts, enter one of the following promotion codes in the **Promotion Code field** in your shopping cart and click the "Update" button:

To order the print book, your code: **adg30cpr**

To order the eBook, your code is: **adg30cebk**

To order both the print and eBook together, your code is: **adg30cbn**
